

4-H Cloverbud Poultry Project Record

My name is _____.

I am _____ years old.

My Address is

I belong to the _____

4-H Club. This is my _____ year in 4-H. I am in the

_____ grade in school.

Paste a picture of your animal below

Caring for Your Animal

Feeding

Start your chicks on a starter mash. Feed the starter mash for the first 6 weeks, and then change to a growing mash. Continue feeding the mash until the pullets start to lay. Switch to a laying mash when the pullets begin to lay.

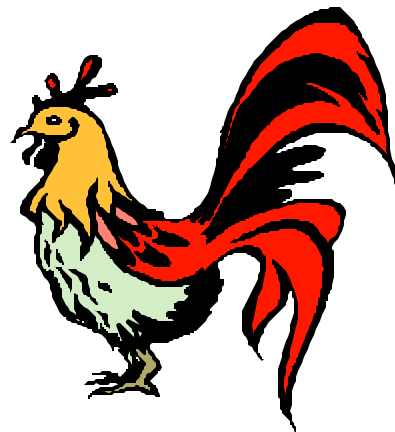

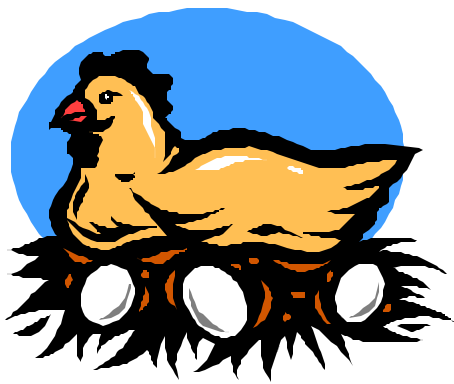

Remember to keep dirt and litter out of the feeder. Chickens like to be fed at the same time every day (just like humans!).

Watering

Provide your chicks with clean, fresh water every day. Wash the water container at least once a day and disinfect them at least once a week to prevent your chickens from getting sick.

Management

Make sure your chicks have plenty of feed and water and are comfortable. This means you should check your chickens at least twice a day.

Records

I started with _____ chicks or chickens.

I had _____ chicks or chickens to die.

What type of chicks or chickens did you start with?

Expenses:

I paid \$_____ for my chicks or chickens.

I spend \$_____ on feed for my chickens.

I also bought these supplies (cage, water container, lights, etc):

The total expenses for my project was (add the cost of chicks, feed, and other supplies): _____.

Income:

Did you sell any eggs or chickens? _____. If so, how much money did you make? \$_____.

Total Cost of Project:

Subtract the money you made from your project from the total you spent on the project.

Total expenses: \$_____
- Total income: \$_____

Total cost of project \$_____

My favorite thing about this project was:

My least favorite thing about this project was:

Next year, I want to learn about:
